

## **Kibba Consulting LLC**

### **Cloud • Cybersecurity • Automation • Copilot Enablement • Training**

Kibba Consulting is a Maryland-based IT consulting and training firm specializing in Microsoft 365, Azure, Power Platform automation, **Microsoft 365 Copilot enablement**, and cybersecurity compliance. We support government and enterprise clients in securely adopting AI, modernizing collaboration workflows, and training their workforce to use Copilot responsibly within existing security, privacy, and compliance boundaries. Led by a CISSP & Microsoft Certified Trainer (MCT) with over 15 years of experience supporting DoD and federal clients, Kibba Consulting delivers mission-aligned, secure, and scalable solutions.

### **CORE COMPETENCIES**

- **Cloud Infrastructure & Security**  
Microsoft 365, Azure, Zero Trust implementation, identity and access governance
- **Microsoft 365 Copilot Enablement & Training**  
Copilot architecture and Microsoft Graph grounding  
Secure Copilot usage in GCC / GCC-High environments  
Role-based Copilot scenarios for government and enterprise users  
Prompt engineering fundamentals and advanced prompt design  
Copilot usage across Word, Excel, PowerPoint, Outlook, Teams, OneNote, and Copilot Chat
- **Automation & Integration**  
Power Platform, SharePoint, workflow and business process modernization
- **Cybersecurity & Compliance**  
NIST 800-53, CMMC, DoD IL5/IL6 alignment, data governance and AI readiness

### **DIFFERENTIATORS**

- Microsoft Certified Trainer delivering **instructor-led Microsoft 365 Copilot QuickStart training**
- Proven experience training Copilot usage **within federal security, privacy, and compliance constraints**

- Authorized training delivery through NetCom Learning for government and enterprise clients
- Deep emphasis on **responsible AI usage**, permissions awareness, and data boundary enforcement
- Dual capability: consulting **plus** Copilot adoption training to drive measurable productivity gains
- Minority-owned small business rooted in innovation and inclusion

## **PAST PERFORMANCE**

- Supported GDIT on the Defense Enterprise Office Solution (DEOS) contract for the U.S. Department of Defense
- Delivered instructor-led **Microsoft 365 Copilot QuickStart training** through NetCom Learning for government and enterprise audiences
- Trained users on Copilot security model, data access boundaries, sensitivity labels, DLP, and governance controls
- Delivered hands-on Copilot immersion experiences, including prompt crafting, meeting summaries, document drafting, and role-based “day-in-the-life” scenarios
- Delivered Power Platform automation saving \$200K annually in service management costs
- Designed and delivered 50+ self-paced cybersecurity and cloud training modules with a 75%+ certification pass rate

## **COMPANY DATA**

- **Primary NAICS:** 541512 – Computer Systems Design Services
- **Other NAICS:** 541513, 541519, 611420
- **UEI:** ZKNWZ13C8D94
- **CAGE Code:** 16DU4
- **DUNS:** 11-957-6504
- **Business Type:** LLC – Small Business, Minority-Owned

- **Security Clearance:** TS/SCI
- **Certifications:** CISSP, Azure Solutions Architect Expert (AZ-305)
